## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest prior art is considered to be Simopoulos et al. (US 4,767,966), which disclose electroluminescent panels comprising a conductive substrate, a phosphor layer comprising phosphor, and a polymer resin carrier, and a second electrode comprised of flaked silver dispersed in a resin base (see figures and col. 5, line 53-col. 8, lines 30-33). Simopoulos et al. fail to teach or to render obvious the very specific features of an EL device as presently claimed.

The method claims have been rejoined. Claims 1, 5-23, 25, 26, and 30-61 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
